

June 25<sup>th</sup> 2013, Road Water Sewer Report

Roads: No issues with the roads have been reported, however there are areas that need to be patched and/or repaired.

Water: We are continuing to work with Acumen Engineering to determine necessary steps to bring the plant into compliance with county mandates and to lift the boil order. Paul Rose is still working with us.

Water samples have been submitted as scheduled.

A residual chlorine level is being maintained to county specifications.

The boil order remains in effect until such time as the plant is operating as designed.

Service lines and valves are scheduled to be replaced. A call was placed to Dennis Jameson to initiate this process

Sewer: Samples have been taken as scheduled. .. The clean outs near the railroad tracks need to be replaced/repared and permanently marked to prevent future damage.

Schoolhouse: . .

Power meters were reads and recorded as scheduled monthly as required.
